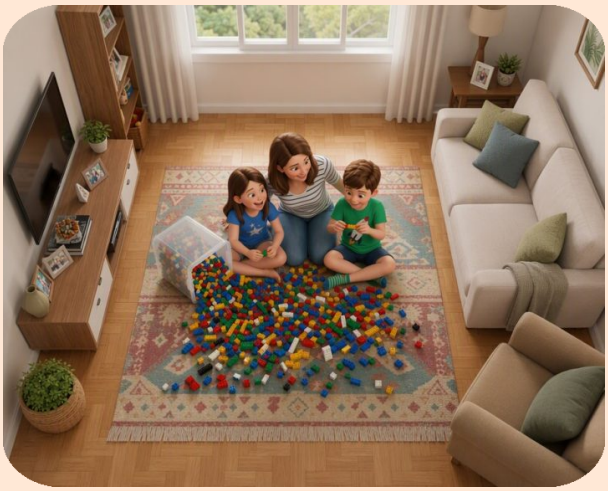
Lucas and Sofia have a box 📦 huge box of colorful blocks. There were a thousand shiny peças no chão. He wanted a fast race car, and she, a super-heroine ready to save the entire world 😀



As a project in mind, both will advance the pieces at the same time. Sofia picked up the red blocks that Lucas wanted for the car's latary, while she secured the used parts in the body of the heroin.

A dispute is quentou in the room. Lucas pushed a piece at the base of Sofia's bone, making her arm fall. Bravo, I responded by pulling the doors of the truck's vehicle. In frustration it took two seconds.

I am selling in confusion, I do not sit on the mat next to them. "We will continue to throw pieces somewhere else, we won't jump," he said softly. "I work in equipment and do much more than stupid brigades."

"Duas heads think better than anyone," he continued to me, showing how to gather strength. "Why don't we help someone else? Combining these ideas will make the jump more fun and fast!"

Inspired, you will change your attitude. "Olha, Sofia, here is this perfect block for your bone's hair!" Lucas said. "And you found all the ideas for your car!", he responded to irmã.

Working together, the montage flowed perfectly. While Lucas helped structure the heroine, Sofia organized the car blocks by core. Or climate of dispute from place to gargalhadas.

Soon, the shiny racing car and the imposing superheroine were ready. Proud, Lucas and Sofia commemorate the result, discovering that together they could raise everything they imagined.
